

SANTA CLARA  
**Windustrial**  
COMPANY

March 15, 2010

Dear Colleague,

On behalf of Santa Clara Windustrial, I would like to extend my thanks to the services that Transworld Systems provides to our company through Western Suppliers Association (WSA).

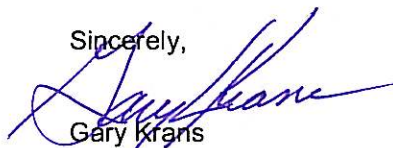

Within just 3 weeks of getting started with Transworld Systems' Greenflag Profit Recovery service, we recovered \$13,000 on 4-6 month old accounts. Nine of the twelve accounts we submitted were paid in full to Santa Clara Windustrial. That is \$18,577.00 back into our bottom line. I was very surprised. We have used other collection agencies and usually that has not been our experience. The typical collection agency recovers the money and takes their time sending our portion. The great thing about our relationship with Transworld Systems' Greenflag Profit Recovery service (phase 1), and WSA is there is no financial risk because we are a member of Western Suppliers Association.

This diplomatic approach allows us to maintain the relationships with our clients that we have worked with for years. Their OCP is available 24/7 and it is easy to use. We like the fact that we can submit accounts and see the status while Transworld Systems does the work for us by sending demands and providing us with the reports we need. They even send a thank you letter to our customers when they pay us.

We are thankful to Transworld for helping us with the task of collecting on stubborn accounts.

If you have trouble collecting on past due accounts call Gae Meminger, Transworld Systems Representative at (510) 290-9033.

Sincerely,

Gary Krans  
President  
Santa Clara Windustrial
